CORE COMPETENCIES

LEADERSHIP & TEAM DEVELOPMENT

EXECUTION

Sharon works with senior leadership teams to design and then to execute a values-based leadership vision. This involves working personally with all senior leadership members to create a vision, mission and core values that provides the North Star for all decisions. She then provides ongoing training and oversight to ensure that the vision is not just stated, but also implemented.

COMMUNICATION

According to Jeff Weiner, Executive Chairman of Linked In, soft skills such as communication are paramount for organizational success in the twenty-first century. Most organizations will live or die by the quality and clarity of their communications. Sharon's hands-on approach with executive teams and staff assures crystal clear communications at all levels.

STRATEGY

Organizations often confuse tactics with strategy. They engage in numerous methods for achieving their goals, but there is no Master Plan. Sharon steps into that void to assure that leaders at all levels are not simply reacting to change, but intentionally creating and executing a long-term strategy.

"Sharon provides golden threads into key leadership and life principles."

ACHIEVE GOALS

There are numerous programs that teach goal-setting. But what is the point of setting goals that do not come to pass? Sharon is all about Goal-getting! She provides you with the tools to set and to ultimately get the life-changing personal results you are looking for!

LIVE YOUR DREAM

Most people die with their dreams unrealized. Often the twin enemies of fear and doubt act as barriers to the realization of our dreams. Sharon walks her clients through a process designed to get their dreams from their heads and into action. Sharon shows you how to live your dream!

"Were it not for Sharon, I would be the same place today I was in December. She is kind and patient while providing wise advice from a successful business background. I recommend her highly!"
